LOW VOC

ANTIFUNGAL

# AS-206
# Bathroom & Sanitary Sealant

ALSEAL Bathroom & Sanitary Sealant is a one component, mildew-resistant, 100% neutral-cure silicone sealant formulated for applications in areas with high humidity and temperature. The fungal resistance property of this sealant has been tested against ASTM G21-02 and found to have a strong fungistatic effect. It will cure to form a durable, flexible, waterproof seal on most common wet area building materials. It is tested to have a low VOC content, in compliance to the SCAQMD Rule 1168 (Adhesive and Sealant Applications).

**Applications:**
Good adhesion on most ceramics, glass and plastics. Widely used for grouting ceramic tiles, bedding tile accessories and sealing shower heads, tubs, rimless, sinks, kitchen and bathroom fixtures.

**Approvals / Specifications:**
- ASTM G21 (Anti-fungus)
- ASTM C920, Type S, Grade NS, Class 25, NT, A and G
- Low VOC - USEPA Method 24 under SCAQMD Rule 1168

**Available colours:** Translucent & white

## Features:

- ✓ Neutral curing system
- ✓ Antifungal
- ✓ Mildew resistant
- ✓ ±25% movement capability
- ✓ Permanently flexible
- ✓ Indoor and outdoor use
