AS-4255 Primerless Auto Glass Sealant

A moisture-cured, high modulus MS Polymer sealant formulated for windscreen bonding applications without primer. It has high green strength and excellent resistance against weathering and temperature extremes. It is solvent-free and will not shrink after curing.

Applications:

Specially formulated for primerless windscreen bonding applications. Suitable for glass bonding in trains and coachwork.

Available colour: Black

Features:

- ✓ Primerless bonding for windscreen repairs
- ✓ Forms flexible weatherproof seal
- ✓ Good UV resistance
- ✓ Fast curing with good green strength
