Artificial Grass Adhesive

ALSEAL Artificial Grass Adhesive is a one-component MS Polymer adhesive formulated for bonding artificial grass floor coverings in athletic and landscaping applications. It contains no solvents (preventing damage to bonded substrates), water (avoiding glue line shrinkage), or isocyanates (no bubbling after cure). It's specially designed to provide weather-resistant bonding for both indoor and outdoor applications.

Applications:
Ideal for installing various types of artificial grass or carpet, including polypropylene, rubber, and polyurethane, whether tufted or woven.

Approvals / Specifications:
- Good Environmental Choice Australia (GECA) certified
- Low VOC - USEPA Method 24 under SCAQMD Rule 1168

Available colour: Green

Features:

- ✓ Single-component – *no mixing required*
- ✓ Permanently elastic – *allows bonded artificial grass to expand/contract*
- ✓ Weatherproof – *indoor and outdoor applications*
- ✓ Green in colour
- ✓ No solvent – *low odour and low VOC*
- ✓ No isocyanate
- ✓ Notched trowel ridges hold firm
- ✓ Good workability – *even at low temperature*
- ✓ Non-flammable
- ✓ Pail - 3 Packs per pail – *less wastage*
