AS-209 Polycarbonate Sealant

ALSEAL Polycarbonate Sealant is a one-component, 100% neutral cure silicone sealant specially formulated for polycarbonate bonding. It can bond well to the polycarbonate even it uses anti-scratch coating for protection. It is also tested and will not cause discoloration to the standard polycarbonate material. It has excellent resistance to weathering, UV radiation, vibration, moisture, ozone, temperature extremes, airborne pollutants, and many cleaning detergents and solvents.

Applications:

Special for bonding and sealing of polycarbonate and other plastic sheet materials in roofing and cladding applications. It will bond to form a strong weatherproof seal on most common building materials such as aluminium, galvanized and zinc-coated steel, painted surfaces, glass, brick, and concrete. It is suitable for both indoor and outdoor applications.

Approvals / Specifications:

- ▶ Low VOC - USEPA Method 24 under SCAQMD Rule 1168

Available colour: Translucent

Features:

- ✓ Excellent bonding to polycarbonate
- ✓ No discoloration to polycarbonate
- ✓ Permanently flexible
- ✓ Indoor and outdoor use
