## AS-7000 Paint Remover

ALSEAL Paint Remover which penetrates into successive coats of paint, varnish or enamel. It is super strong and fast reacting yet non caustic hence will not damage bared surfaces. It is highly viscous and can be applied on vertical surfaces. It also contains surfactant which improves penetration of the paint remover.

### Applications:

Removal of coatings from metal, wood, plaster and glass. Removal of enamel paints, varnishes and bitumens. Can also soften acrylic paints and glues.

**Available colours:** Clear

### Features:

- ✓ Non-caustic
- ✓ Cost effective
- ✓ Super strong and fast reacting
- ✓ High viscosity
- ✓ Works on vertical surfaces
