

Interior wall to wall corner joint

Perimeter Sealing

Gap Between Wall & Cabinet

## AS-1130 Fast Drying Gaps Sealer

ALSEAL Fast Drying Gap Sealer is a premium-grade acrylic sealant formulated for a fast paint-over time. It's ideal for sealing applications requiring a quick paint finish. Designed for sealing gaps and joints where movement or vibration is expected.

### Applications:

It's perfect for sealing where a fast paint-over is needed and also suitable for general indoor applications such as door and window joints, cabinet and wardrobe installation, and wood flooring skirting. It adheres well to a range of substrates, including metal, PVC, wood, concrete, gypsum boards, reinforced cement boards, and marble.

### Approvals / Specifications:

- ▶ Good Environmental Choice Australia (GECA) certified
- ▶ Low VOC - USEPA Method 24 and SCAQMD Method 304-91 under SCAQMD Rule 1168

Available colour: White

### Features:

- ✓ 10 minutes paint over time
- ✓ Paintable
- ✓ Permanently flexible
- ✓ Easy clean up
